Let Go

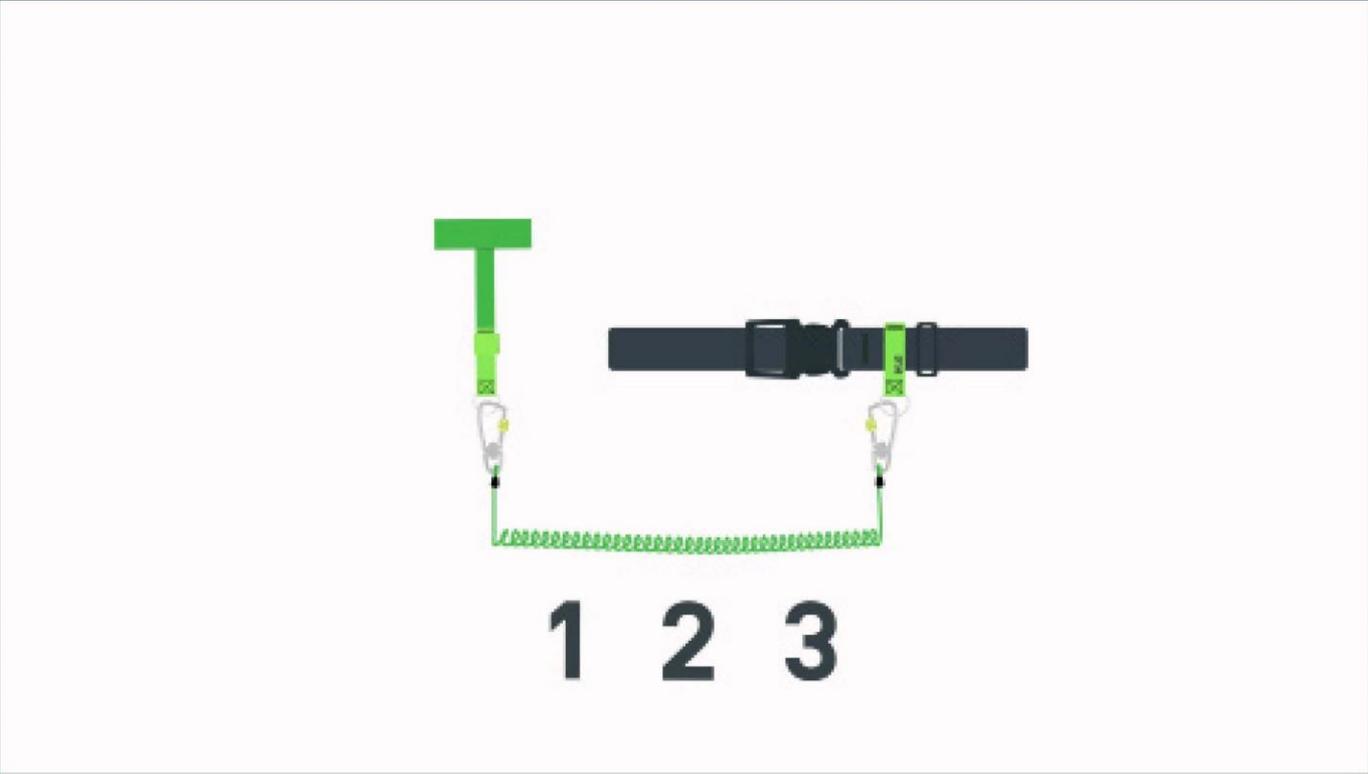

# Education and Understanding

# Understanding drops

# Tool tethering made simple

123 Tool Tethering

# NLG 7 Framework™

## 1 - Discovery Workshop

Introduce dropped tool prevention concepts and identify project scope with needs analysis

## 2 - Site Awareness

Start building user awareness and engagement with tool box talks and site posters

## 3 - Trial

Test a proof of concept with a small team and commence any bespoke product development

## 4 - Policy Template

Draft and finalise Dropped Object Prevention Policy and distribute to users

## 5 - Training

Following training, whether onsite or online, test user understanding and issue certification

## 6 - Site Setup

Install Tether Stations, Learning Hub Boards and establish supply partners and distribution channels

## 7 - Communication

Share the projects successes and learnings with the PR support package

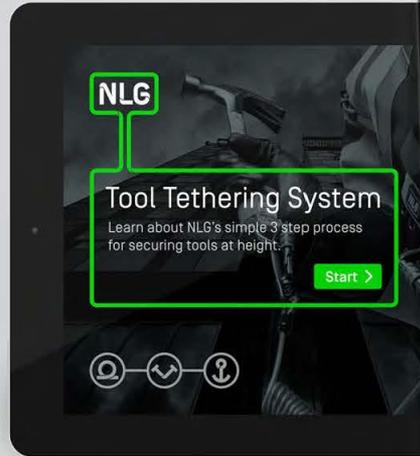

Bonus

# Dropped Tool Prevention Learning Bundle

Includes:

- Dropped Object Handbook
- Awareness Posters
- Training Videos
- Online Tools (Early Access)
- Interactive Tool Tethering Guide
