# OCEANEERING INTEGRATED SOLUTIONS - LIFE OF FIELD

# HEALTH SAFETY ENVIRONMENT

## Key Principles

---

- Actions of Senior Management drive culture
- All injuries and environmental incidents are preventable
- Line Management ownership, through engagement

## Key Aspects

---

- **CEO leads HSE Steering Team** - Biweekly meetings with operating groups
- **Fatality/serious incident prevention** - Reporting culture, HiPo's, life saving rules
- **Environment** - Good reporting culture, minimal risk

# LIFE SAVING RULES

## ENERGY ISOLATION

Verify isolation before work begins and use the specified life protecting equipment

## SUSPENDED LOADS

Do not walk under a suspended load

## WORKING AT HEIGHT

Protect yourself against a fall when working at height

## CONFINED SPACE

Conduct gas test when required

## PRESSURE TESTING

Do not enter pressure testing areas

## RADIATION

Use radiation monitor and wear a TLD badge

# Oceaneering Initiatives to prevent dropped objects

# Oceaneering Initiatives to prevent dropped objects

- Eliminate & engineer out work at height
- Life saving rules – Work at height
- SFS – Dropped objects handbook
- Dropped object checklists – Scheduled DROPS rounds.
- Tooling kits made for work at height operations
